

Start a rewarding career as a **CONTINUING CARE ASSISTANT**

with Eastern College and Hillside Pines Home for Special Care

FREE TUITION:

Continuing Care Assistant - Progressive Education

Eastern College & Hillside Pines Home for Special Care have partnered to provide an exceptional opportunity for those who would love to start a new or second career in the Health Care Sector as a Continuing Care Assistant. Funding is provided through the Nova Scotia government.

There is a great demand for this designation due to the increase in our aging population and the level of care that is required.

Hillside Pines is an Eden registered long term care home that embodies an elder-centered philosophy. We are committed to delivering outstanding quality of care that exceeds Elder's expectations. Hillside Pines is a lovely, warm home situated amongst the pines in the Town of Bridgewater on Nova Scotia's picturesque South Shore. We believe that every Elder should be able to embrace Hillside Pines as their home. They have the right to live their lives to its fullest potential emotionally, intellectually, socially, spiritually, and culturally.
